

Student email to a Palestinian native, addressing the compelling question: *What is the most effective way to address religious persecution of Palestinian Muslims in Israel?*

Hi,

Part 1- <https://drive.google.com/file/x>

Part 2- <https://drive.google.com/file/x>

This is my presentation for my project. I had to split it into two parts because the recorder I am using only allows the video to be 10 minutes max so you can watch part 1 first then part 2. After watching could you please give me some constructive feedback on my presentation with some detail. (Also, the presentation is kind of long so if you want you can forward through each slide so that it is faster. And you don't have to listen to the audio that is just for my teacher.)

Thanks.

Response from "on the ground" expert

Hi,

Sorry because I have been traveling I did not get a chance to review it; I have been very busy. I just listened to it on my phone while in a restaurant getting something to eat. Not most ideal situation.

I think it is very good. I have some comments below.

Biggest issue is when you said Obama is an obstacle, he is not. He tried, he was very weak and unable to forge a peace agreement; yes he signed loan guarantees for \$38 billion of aid to Israel but he is not the obstacle; Netiniahoo prime minister of Israel is the obstacle and his government that oppose 2 state solution and constantly building and growing settlements; eating up the Palestinian land and breaking connectivity of Palestinian cities, picking up the tops of hills; fertile land and water resources.

Second comment when you talked about demolishing homes in Gaza, I would have mention Israeli invasion of Gaza where they destroyed thousands of homes. I would have mentioned the blockade they have on Gaza for the last 6 years making it a large prison.

Another comment when you mention who, I would clarify that's world health organization.

You could have elaborated about the birth of Zionism and their terror organization that terrorized arabs and Jews in Europe to scare them and encourage them to move to Palestine from Europe.

I would have the big role played in this starting with the Belfore declaration 99 years ago in 1917 promising a homeland for Jews in Palestine and how they aided and facilitated the Jews migrations and arms to the Zionist gangs in Palestine.

Again, sorry about the late reply; it has been very hectic and unusual weekend
